

Step By Step
By Ray Guzzardo

When I think about the times that I was all alone
I was tryin' to do most everything on my own
Never thinkin' about the One
Who was always standin' by my side

It took me far too long to find out He was always there
He was standin' right in front of me, but I was unaware
Now, I'd like to say to all of you
This will never ever happen again

Chorus:
Little by little and step by step
I will walk in the Spirit and never forget
Little by little and step by step
God is walkin' with me
Step by step

Now this world would be a better place
If we practiced what we preached
If we devoted more attention
To what the Bible has to teach
With His help I can do all of this
But it's little by little...
And step by step

Chorus:
Little by little and step by step
God is walkin' with me and I'll never forget
Little by little and step by step
God is walkin' with me
Yes, He's walkin' with me
My God is walkin' with me
Step by step
